INTEGRITY

The content SHA-256 printed on every page is the hash of the canonical text of version 1: the agreement kind, title, scope, exclusions, refund policy, professional fee in minor units, currency, government fee note, comparison note and terms, joined by line breaks in that order. The text was locked when it was sent and every signer signed that exact text.

This PDF was sealed when the last party signed and is stored unchanged by Maple & Rivière Immigration Conseil Inc. Its own SHA-256 is recorded with the envelope and printed on the completion certificate.

Signed with Casevoya's in-house electronic signature. This is not a signature on a government form and does not by itself authorize representation before a government body.
